| Job Title:| ELECTRICAL TECHNICIAN |
| Job Description: | The Electrical Technician performs duties under the general direction of the Maintenance Supervisor. Works independently to perform maintenance, repair, and/or modification of the plant’s computer driven controls systems and the plant’s mechanical and electrical systems. Is involved in fabrication, application, installation, and repair of mechanical electromechanical equipment, the installation of electrical conduit and machine/building wiring. **Minimum Requirements:** HS diploma required. Completion of a recognized vocational education program in electrical or industrial electrical or industrial training. Prior experience working with Allen Bradley, Siemens, and Wonderware Electrical Controls is preferred. Background in Programmable Logic controllers, computer systems and electronics. Experience in electrical and mechanical service and maintenance. Experience with AutoCAD, MS Office is preferred. Experienced in the use of electrical diagnostic equipment such as multimeters, amp clamps, and meggers to test electrical circuits and components to locate shorts, faulty connections, defective parts and replaces or repairs. Forklift certification required prior to the completion of probation with maintenance thereafter. |

**Application Procedure:** Please contact Carol Bartholet at the email: cbartholet@skinnerbaking.com or at the phone number listed above.
