Job Title: MAINTENANCE ELECTRICAL TECHNICIAN

Description: Pinnacle Foods Corporation is seeking one Maintenance Electrical Technician at its Ft. Madison Food Plant facility. Candidate must be a self starter and willing to work in a team environment.

The Maintenance Electrical Technician is responsible for coverage of production lines, troubleshooting, repairing, adjusting equipment and maintaining PLC/Servo controlled equipment. In addition, the electrician is responsible for modifications and repairs done to the facility. This includes layout, design, and/or design assistance, parts procurement, installation of equipment, conduit work and debugging of equipment. The Electrician is responsible to become familiar and work with 12,470 volt plant power distribution systems and is expected to be able to operate this equipment as necessary. The successful candidate is responsible to demonstrate skills to electricians and others in a participative work environment.

Candidates should possess a minimum of a two year Technical college degree and two years industrial/commercial electrical experience. The Electrician will be required to have knowledge of PLC technology, instrumentation, motor controls and high voltage systems.

Salary/Benefits: Not given

Application Procedure: Interested candidates should send a resume to the email listed above.
