## **JOB OPPORTUNITY**

**Company: Sabre Industries**  
7101 South Bridge Drive  
Sioux City, IA 51111

**Welder:** Manually positions pole assembly in pole rollers into proper position for welding. Reads and interprets drawings (including weld symbols) and specifications to determine proper location of attachments, as well as weld size and configuration.

Adjusts welding machines to achieve desired results within parameters of established welding procedures. Frequently pushes, pulls and lifts up to 50 pounds.

Visually inspects his/her work to identify material discrepancies and to ensure that welds have been completed satisfactorily in compliance with applicable drawings and specifications.

Previous welding experience desired. Proficiency in reading complex prints and specifications. Must know how to properly use a weld gauge. Must be able to stand 100% of scheduled shift. Must be able to use foot pedal to operate equipment. HS diploma or equivalent preferred.

Shift: Night Shift: Sunday – Thursday, 5:00 pm – 3:45 am, frequent 6 day work weeks, weekends, and OT scheduled based on production need.

Day Shift: Monday – Friday, 6 am – 4:45 pm, weekends and OT as needed.
