Manufacturing Day Set for October 23 at Northwest Iowa Community College

Northwest Iowa Community College will hold a Manufacturing Day event to promote and showcase the Manufacturing programs at NCC: Production Welding, Advanced Welding Technology, Engineering Design and Design Technology.

NCC's Manufacturing Day is a part of the statewide effort lead by the The Iowa-Advanced Manufacturing (I-AM) Consortium and Iowa Association of Business and Industry (ABI) to highlight some of Iowa's outstanding and excellent opportunities that a career in manufacturing can provide. The celebration kicked off in the beginning of October with a formal proclamation from Governor Branstad at the Capitol building in Des Moines.

Steve Waldstein, Dean of Applied Technology, said, "NCC is very excited to educate surrounding manufacturing companies about what our manufacturing programs have to offer. Over the past six months, our Engineering Design, Design Technology and Welding programs have received several new pieces of equipment to better serve our students in preparation for the 21st century workforce."

Manufacturing Day Schedule:

9:30 am – Welcome - Building C, Auditorium

9:45 am – Welding Sculpture Unveiling & Refreshments – Outside Building C

10:00 am-Noon – Open House & Tours of NCC – Manufacturing Programs

(Other tours available upon request)

For more information or to RSVP (by October 16) contact Jerry Baas at jbaas@nwicc.edu or call 800-352-4907, ext. 380.
