NCC Graduates are in Great Demand!

Approximately 221 students graduated from Northwest Iowa Community College on May 15, 2015. While many of these students plan to continue their education, many more career program graduates will be entering the workforce.

At a time when Iowa faces population declines and record low unemployment, it is encouraging to note that 84 percent of NCC graduates in career programs are employed in Iowa. This statistic is based on the 2014 Northwest Iowa Community College Placement Report, a survey conducted with graduates during the Fiscal Year 2014.

NCC continues to serve the citizens of our communities by providing learning opportunities for high demand careers; the College serves our business community by developing a well-trained workforce ready to meet the challenges of tomorrow.

In the survey to NCC graduates, a total of 370 people were contacted. The following data is based on the responses to the survey: **100 percent noted that they are employed or have continued their education**, 86 percent are employed in a related area.

Program	% Employed	% Employed in a Related Field
Associate of Arts/Pre-Professional	100%	29%
