WELDING NIGHT CLASS OFFERED AT NORTHWEST IOWA COMMUNITY COLLEGE

Northwest Iowa Community College will offer a course entitled Creative Art with Plasma Cutting starting Tuesday January 15 for 4 consecutive Tuesdays. This 12 hour course meets from 6:00 to 9:00 p.m., in the NCC welding shop, room 424, Building D.

Here is your chance to learn how some of the art or some of the unique shapes are really designed and cut out. In this class you will learn how the software works that designs shapes and operates the PlasCam CNC plasma cutting table. You will learn how you can take your design from idea to actually making the parts.

The instructor for this course is Robert Hoting and the fee is \$169. Register online at www.nwicc.edu or, call the Continuing Education office locally at 324-5061 or toll free at 800-352-4907.
