

Radiologic Technology Program

As an accepted student in the Radiologic Technology Program, it is required to complete job shadowing hours. This experience allows first-hand knowledge of the Radiology career.

Job Shadowing Expectations

- Dress appropriately in business casual or scrubs.
- Adhere to a no cell phone policy while shadowing.
- Be respectful of staff and property.

Student Name: _____ Site of Shadowing/ Date: _____

Please place a mark or check that the student has completed the following and fulfilled job shadowing requirements.

_____ Minimum of 10 diagnostic x-rays

_____ Observed at least one ER exam

_____ Observed at least 2 CT exams

_____ Observed at least one additional modality (MRI, Mammo, US, Nuc Med)

_____ Observe IV insertion

_____ Observe a C-arm procedure or shown the C-arm and explain when and how it is used

_____ Tour the department and learn what is needed to perform each modality

_____ Learn what the PACS system is and how it works

_____ Learn about the EHR (what information is stored) and how different from PACS

_____ Interview a tech – suggestions are to learn what exams they perform, favorite/least favorite exam and why, typical schedule (on call, weekends, days, full or part time, etc.)

Technologist(s) signature stated that the above is completed _____

Job shadowing forms must be completed and returned by August 15th to lstory@nwicc.edu

Any questions regarding shadowing may be directed to: Kelsey Van Beek, Radiologic Technology Program Director, at NCC. 712-324-5061 ext. 237
